

## Professional Libraries Within TUHSD

Each high school site has a professional library within the site's library media center.

### At Each School Site

If a TUHSD staff employee would like to check out a book from another campus, please send the site's Library Media Specialist an email indicating the title of the book, the call number, and worksite.

To determine if a specific book or subject is available, access the library catalog for your campus by clicking on the TUHSD Destiny icon on your desktop. The books in the professional library can be found by entering the title, subject, author, or keyword in the search engine. If the title is available, it will show. It will also show the site where the book is located.

All of the books in the Professional Library have a call number that begins with "DO PRO."

The book will be checked out to the staff member for 180 days and delivered via inter-district mail. The due date will be noted in *Destiny* and on a slip on the front cover. Please make sure to return the book to the originating site promptly.
